# Groove Tubes Adviesverkoopprijslijst 2011

Item #	List	Premium Series - Selected Preamp Tubes	
GT 12AT7	€ 29,00	Highest quality JAN spec. military tube. NOS, made in USA with longest life	
GT 12AU7	€ 29,00	Highest quality JAN spec. military tube. NOS, made in USA with longest life	
GT 12AY7	€ 62,00	Also known as the 6072, was a popular tube in the late 40's and early 50's in most Fender and Gibson amps.	
GT 12AX7C	€ 27,00	A new offering from China, warm round and fat tone, not too bright	
GT 12AX7R	€ 28,00	Older style Russian type, strong tone but a little edgy	
GT 12AX7R2	€ 40,00	The long plate Russian Version of the 12AX7 preamp tube	
GT 12AX7R3	€ 40,00	Great for Marshalls and Fenders. Sweet warm mid range tone, complements tone of European amps	
GT 12AX7M	Temporarily Unavailable	Reissue of classic Mullard version	
GT ECC83	€ 30,00	The standard tube of Marshall and Vox amps. (European, very linear, or true, tone...might be best bet for bass).	
GT 5751M	€ 30,00	A 12AX7/ECC83S/7025 replacement with about 70% of the gain of a 12AX7.	
<b>Microphone Tubes</b>			
GT 6072 M	€ 35,00	JAN spec microphone tube	
GT 6201 M	€ 28,00	Specially selected for use in the recording microphones as they exhibit low noise, hum and microphonics. These tubes are tested and processed from NOS General Electric USA made stocks and are the hand picked of the litter	
Item #	Duet	Quartet	Matched Power Sets
<b>6V6 FAMILY</b>			
GT 6V6C	€ 49,00	€ 98,00	Classically designed with warm overdrive and soft distortion character. Lower cost reflects shorter life-span
GT 6V6R	€ 69,00	€ 138,00	The choice of most all smaller powered Fender amps and other similar low powered amps (about 15 watts per tube). Warm, round, easily overdriven. Great for recording or practice
GT 6V6S	€ 78,00	€ 156,00	Highest output 6V6. This tube has more of the character of a 6L6 than 6V6 in many amps. These handle plate voltages in excess of 475 plate volts and have a very aggressive tone and long life.
<b>6L6 FAMILY</b>			
GT 6L6C HP	€ 68,00	€ 136,00	High Performance black plate 6L6 with GT heat sink plate assembly. 30 watt tube.
GT 6L6R (B)	€ 78,00	€ 156,00	Russian made, same as the 5881 you are using now, but when these are matched in our system they are improved. These are a very sturdy and reliable tube
GT 6L6S	€ 92,00	€ 184,00	Slovakian made with high power and very aggressive dynamic tone...punchier sounding but still a sweet tone
GT 6L6GE	€ 115,00	€ 230,00	A faithful reproduction of the original General Electric "clear top" tube made on the original GE machines and with many original materials
GT5881C	€ 68,00	€ 136,00	High vacuum short bottle. 30 watt tube.
GT KT66C	€ 148,00	€ 296,00	This is an exact copy of the UK tube that was used in the "bluesbreaker"amp made by us in Russia today with huge tone, very warm and round plus a big bass
<b>EL34 FAMILY</b>			
GT E34LS	€ 76,00	€ 152,00	New exclusive GT design with special "heat wings" attached to plate for more power, longer life, and better tone. Big bottom, very dynamic, most powerful in it's class
GT EL34R	€ 78,00	€ 156,00	This Russian made pentode is standard issue on many UK amps and has great durability, although as with most Russian power tubes the break up is a bit harsh and they lack high end as compared to the true
GT EL34M	€ 68,00	€ 136,00	Reproduction of a classic EL-34 XF2 Dual Getter tube. This is a classic.
GT 6CA7-GE	Temporarily Unavailable	The reissue of the famed GE 6CA7. Active beam forming element, high vacuum. Output a bit higher than current EL34 tubes	
GT KT77S	€ 105,00	€ 210,00	KT-77S Beam Pentode. This is a direct replacement for an EL34 or E34LS tube. This is a matched duet of two tubes.
<b>6550 / KT88 FAMILY</b>			
GT 6550C	€ 160,00	€ 320,00	A softer version of the older USA 6550A, with a nice distortion character. This tube has a distortion that is between a 6L6GC and a 6550A
GT 6550R	€ 160,00	€ 320,00	Highest power pentode for use in Marshall, Hiwatt, Ampeg SVT, the GT amps and a few other higher powered amps. Also popular for HiFi amps
GT KT88SV	€ 215,00	€ 430,00	The KT88SV is the newest version, identical to original Golod Lion specs from the 60's
Item #	Duet	Quartet	Matched Power Sets
<b>EL84 FAMILY</b>			
GT EL84R	€ 45,00	€ 90,00	Russia EL84, Good quality, long lasting type with a slightly aggressive edge when pushed into overdrive
GT EL84S	€ 52,00	€ 104,00	New European version with even more response, higher power and warmer tone

# Groove Tubes Adviesverkooprijlijst 2011

Item #	Duet	Quartet	Other Types
GT 7027S	€ 112,00	€ 224,00	Rare power pentode used in the early Ampeg amps, currently the only one available for these amplifiers

GT 7591R	€ 130,00	€ 260,00	This obscure pentode tube used in some early Gibson amps has been off the market until our favorite Russian factory decided to supply it again
----------	----------	----------	--

Item #	List	Rectifiers
GT 5AR4	€ 40,00	The most common rectifier used in higher powered amps which use a rectifier such as Fender 40 watt amps and Vox AC-30 amps

GT 5U4 BIG (Big Bottle)	Temporarily Unavailable	Common to many medium powered amps such as the Fender Blackface amps. This is the factory selected rectifier for the Mesa Dual and Triple rectifier series
----------------------------	-------------------------	--

GT 5U4 SHORT (Short Bottle)	€ 37,00	Common to many medium powered amps such as the Fender Blackface amps. This is the factory selected rectifier for the Mesa Dual and Triple rectifier series
--------------------------------	---------	--

GT 5Y3	€ 39,00	Common to lower powered Fender amps such as the Champ, Princeton and Deluxe amps. May be used in many 5AR4 and 5U4 amps for lower levels
--------	---------	--

GT 6C4	€ 26,00	A common 9 pin rectifier for smaller amps like the Silverstone guitar/amp case combos of the 50's
--------	---------	---

GT 6CA4	€ 38,00	A common 9 pin rectifier for smaller amps like the Silverstone guitar/amp case combos of the 50's
---------	---------	---

GT SS5AR4 (Solid State)	€ 37,00	Replaces the tube 5AR4, adds power, increases dynamics, and it will not wear out
----------------------------	---------	--

Item #	List	Substi - Tubes
Allow the replacement of Octal type Pream Tubes with 9-pin miniatures		

SUBSTI-TUBE 1	€ 78,00	6SL7 TO 12AX7 (INCL. GT 12AX7)
---------------	---------	--------------------------------

SUBSTI-TUBE 1A	€ 78,00	6SN7 TO 12AT7 (INCL. GT 12AT7)
----------------	---------	--------------------------------

SUBSTI-TUBE 2	€ 78,00	6SC7 TO 12AX7 (INCL. GT 12AX7)
---------------	---------	--------------------------------

SUBSTI-TUBE 3	€ 78,00	6SJ7 TO 12AX7 (INCL. GT 12AX7)
---------------	---------	--------------------------------

GT SUBEF86	Temporarily Unavailable	Replace the EF-86 in your Matchless, Vox, Dr. Z, Bad Cat, Victoria Sovereign or other EF86 based amp with a 12AX7 for less noise and high performance. Designed by Mark Sampson
------------	-------------------------	---

Item #	Duet	Quartet	Power Reducer
Converts any amp using a Duet or Quartet of EL34 or 6L6 power tubes for use with EL84 power tubes. The 928PR reduces power up to 70% and changes amp into a self biasing class A triode mode. Works great on any tube amp. Sold single or in Duets/Quartets with GTEL84S lower numbered power tubes			

GT SUB928	€ 190,00	€ 389,00	928PR Amp Power Reducer (Single) w/ GT EL84S
-----------	----------	----------	--

Item #	List	GT Special Applications Group
Complete preamp kits available for the most common amplifiers and applications		

GT SAG-MHG	€ 100,00	Marshall High Gain kit, 2 SAG ECC83S and 1 AX7-MPI tubes optimized for the preamp stage of Marshall style amps.
------------	----------	---

GT SAG-FHG	€ 100,00	Fender High Gain kit. 2 selected high gain ECC83S tubes optimized for the preamp stage of Fender amplifiers of all eras which use a 12AX7/7025 first gain stage. Two high gain preamp tubes and one matched 12AT7 phase inverter.
------------	----------	---

GT SAG-FST	€ 100,00	Fender Soft-Touch kit. 3 Tubes; 2 selected lower gain, slow rise time 12AX7C tubes optimized for the preamp stage of Fender amplifiers. Also included is 1 matched 12AT7 phase inverter.
------------	----------	--

GT SAG-AX7-MPI	€ 45,00	Specially selected and matched 12AX7 for critical audio or guitar/bass amplifier use where a match of the two sides of the triode are desired for phase inverter or driver use.
----------------	---------	---

GT SAG-AT7-MPI	€ 45,00	Specially selected and matched 12AT7 for critical audio or guitar/bass amplifier use where a match of the two sides of the triode are desired for phase inverter or driver use.
----------------	---------	---

Item #	List	Tube Bias Kit
GT BIAST	€ 100,00	Bias Tool and Manual

Item #	List	
GT POWERPICK	€ 13,00	Power Pick Guitar or Bass.

Item #	List	
Guide to Choosing and Using Vacuum Tubes (2nd. Edition)		
GT GUIDE	€ 24,00	

Item #	List	The Fatfinger
Increases sustain by adding physical mass to the headstock of your instrument. Works on all stringed instruments, electric and acoustic. Used and endorsed by Joe Satriani, Bill Sheehan and dozens of other great musicians.		

GT FATG*	€ 45,00	*B=Brass, C= Chrome
----------	---------	---------------------

GT FATB*	€ 53,00	*B=Brass, C= Chrome
----------	---------	---------------------

Power Tube Rating	the 1-10 rating on each set of power tubes indicates the Gain / Distortion performance
1-3 (Blue)	Early distortion, softer
4-7 (White)	Normal distortion
8-10 (Red)	Late distortion

Replacing GT Tubes with same type & rating will not require re-biasing your amp.

GT Suffixes	indicates country of origin:
B or R	Russia (1.2.and 3 are different designs)
C	China
S	Slovakia
Y	Serbia (former Yugoslavia)
